

assessing the potential for additional sensitivity of infants and children to residues of pyriproxyfen, FFDCA section 408 provides that EPA shall apply an additional margin of safety, up to ten-fold, for added protection for infants and children in the case of threshold effects unless EPA determines that a different margin of safety will be safe for infants and children.

The toxicological data base for evaluating pre- and post-natal toxicity for pyriproxyfen is complete with respect to current data requirements. There are no special pre- or post-natal toxicity concerns for infants and children, based on the results of the rat and rabbit developmental toxicity studies or the 2-generation reproductive toxicity study in rats. Valent concludes that reliable data support use of the standard 100-fold uncertainty factor and that an additional uncertainty factor is not needed for pyriproxyfen to be further protective of infants and children.

ii. *Chronic dietary exposure and risk— Infants and children.* Using the conservative Tier I exposure assumptions described above, the percentage of the RfD that will be utilized by chronic dietary (food only) exposure to residues of pyriproxyfen ranges from 0.000293 mg/kg/bwt/day for Nursing Infants (<1 year old), up to 0.000771 mg/kg/bwt/day for Non-Nursing Infants (<1 year old), 0.084 to 0.220% of the RfD, respectively. Adding the worse case potential incremental exposure to infants and children from pyriproxyfen in drinking water (1.6×10^{-5} mg/kg/bwt/day) does not materially increase the aggregate, chronic dietary exposure and only increases the occupancy of the RfD by 0.0046% to 0.225% for Non-Nursing Infants (<1 year old). EPA generally has no concern for exposures below 100% of the RfD because the RfD represents the level at or below which daily aggregate dietary exposure over a lifetime will not pose appreciable risks to human health. It can be concluded that there is a reasonable certainty that no harm will result to infants and children from aggregate, chronic exposure to pyriproxyfen residues.

iii. *Acute dietary exposure and risk— Infants and children.* An acute dietary dose and endpoint was not identified. Thus, the risk from acute aggregate exposure is considered to be negligible. Non-Dietary Exposure and Aggregate Risk -- Infants and Children: Acute, short term, and intermediate term dermal and inhalation risk assessments for residential exposure are not required due to the lack of significant toxicological effects observed.

F. International Tolerances

Pyriproxyfen is a New Compound scheduled for Toxicological and Residue evaluations at the 1999 JMPR. Therefore, there are no presently existing Codex MRLs for pyriproxyfen. [FR Doc. 98-26782 Filed 10-5-98; 8:45 am]

BILLING CODE 6560-50-F

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6172-7]

Proposed Prospective Purchaser Agreement Pursuant to the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as Amended by the Superfund Amendments and Reauthorization Act, Bonne Terre Superfund Site, St. Francois County, MO

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: Notice is hereby given that a proposed prospective purchaser agreement associated with the Bonne Terre Superfund Site, located in St. Francois County, Missouri, was executed by the Agency on June 24, 1998, and concurred upon by the United States Department of Justice on September 10, 1998. This agreement is subject to final approval after the comment period. The Prospective Purchaser Agreement would resolve certain potential EPA claims under the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986 ("CERCLA"), against the City of Bonne Terre, Missouri, the prospective purchasers ("the purchasers").

The settlement would require the purchasers to eliminate any threat of direct exposure to the mine tailings by providing and maintaining a permanent clean cover over the entire property; level and grade the property so as to minimize the potential for erosion; agree to deed restrictions prohibiting residential use of the property or any other use that might attract children; properly handle any excavation of highly contaminated soils; and provide the EPA access to the Site.

For thirty (30) days following the date of publication of this document, the Agency will receive written comments relating to the proposed settlement.

DATES: Comments must be submitted on or before November 5, 1998.

ADDRESSES: Comments should reference the "Bonne Terre Superfund Site Prospective Purchaser Agreement" and should be forwarded to Jack Generaux, Remedial Project Manager, U.S. Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101.

The proposed settlement is available for public inspection at the U.S. Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101. A copy of the proposed agreement may be obtained from Eileen Gendreau, U.S. Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101, (913) 551-7736.

FOR FURTHER INFORMATION CONTACT: David Cozad, Senior Associate Regional Counsel, United States Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101, (913) 551-7587.

Dated: September 25, 1998.

William Rice,

Acting Regional Administrator, Region VII.

FARM CREDIT ADMINISTRATION

Sunshine Act Meeting; Farm Credit Administration Board; Regular Meeting

AGENCY: Farm Credit Administration.

SUMMARY: Notice is hereby given, pursuant to the Government in the Sunshine Act (5 U.S.C. 552b(e)(3)), of the forthcoming regular meeting of the Farm Credit Administration Board (Board).

DATE AND TIME: The regular meeting of the Board will be held at the offices of the Farm Credit Administration in McLean, Virginia, on October 8, 1998, from 2:00 p.m. until such time as the Board concludes its business.

FOR FURTHER INFORMATION CONTACT: Floyd Fithian, Secretary to the Farm Credit Administration Board, (703) 883-4025, TDD (703) 883-4444.

ADDRESSES: Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102-5090.

SUPPLEMENTARY INFORMATION: Parts of this meeting of the Board will be open to the public (limited space available), and parts of this meeting will be closed to the public. In order to increase the accessibility to Board meetings, persons requiring assistance should make
